DTF_Industrial_Printers

Industrial DTF Printer – High-Performance Direct to Film Printing Solution

Industrial DTF Printers are built for high-volume, 24/7 textile printing operations, making them ideal for garment factories, print service providers, and growing apparel brands. Unlike basic or desktop DTF models, industrial-grade printers feature durable frames, dual or triple print heads (like XP600, i3200, or i1600), and integrated powder shaking and curing systems for continuous production.

These machines are engineered to handle demanding workloads while delivering excellent color accuracy, high-resolution prints, and consistent output on a wide range of fabrics including cotton, polyester, blends, and technical textiles.

Key Features of Our Industrial DTF Printer:

- Dual/Triple XP600 or i3200 print heads for high-speed output
- Automatic powder shaker and curing unit for smooth workflow
- White ink circulation system to prevent clogging and improve efficiency
- Intelligent media feeding sensors for accurate film movement
- Bulk ink tanks for cost-effective long runs
- Reinforced rollers and belt systems for industrial durability
- Compatible with top-grade DTF inks, PET films, and hot melt powders

Applications:

- Bulk t-shirt and hoodie printing
- Custom sportswear and uniforms
- Promotional merchandise production
- Small batch orders with frequent design changes

Why Choose an Industrial DTF Printer?

Choosing an industrial DTF printer means faster production, lower per-piece cost, and the ability to scale up your business with confidence.

These machines are reliable, easy to operate, and offer superior quality that meets the demands of today's fast-moving fashion and print-on-demand markets.

Available Models:

- 12-inch Industrial DTF Printer

- 24-inch (60cm) Large Format DTF Printer
- Roll-to-Roll models with fully integrated powder shaker and dryer

Need help choosing the right machine for your business? Contact ProlificGeeks to get expert guidance, live demos, and the best value industrial DTF solutions for your specific needs.

Printing Technology	Inkjet
Capacity	1000 per hours
Color Output	Color
Model Name/Number	Audley DTF
Print Method	Roll To Roll
Maximum Paper Size	24×100 MTR

Here are **5 key features** of the **Audley DTF 24-Inch I3200 Dual Head Printer**, presented in bullet format for quick reference:

★ Audley DTF 24" I3200 Dual Head Printer – 5 Key Features

-  **Dual Epson I3200-A1 Printheads**
Delivers ultra-high-resolution prints with enhanced speed and durability—ideal for bulk DTF production with fine detail and smooth gradients.
-  **Large 24-Inch Print Width**
Supports **up to 60 cm PET film rolls**, enabling printing of oversized designs, gang sheets, and maximizing fabric coverage per print job.
-  **High-Speed Multi-Pass Modes**
Offers versatile pass options (4/6/8 pass) for balancing **print speed and quality**, ranging from 6 to 14 sqm/hr.

- 🎨 **White + CMYK Ink Configuration**
Prints vibrant full-color designs on both light and dark fabrics with solid **white ink underbase support**, preventing color fading or washout.
- 🛠️ **Compatible with Auto Powder Shaker & Dryer**
Seamlessly integrates with Audley's **automatic powdering and curing units**, streamlining the workflow from print to transfer-ready.

Audley 24-Inch DTF Printer with 4 Epson i3200 Heads & Automatic Powder Shaker Unit

The **Audley DF Series 24-inch DTF Printer** is built for industrial-level production and unmatched reliability. Equipped with **4 high-performance Epson i3200 printheads**, it delivers stunning output quality at high speeds. Perfectly paired with a **fully automatic powder**

shaker, this system ensures consistent powder application and curing —ideal for mass production in textile and apparel industries.

☀️ Key Features:

✅ **Printing Width:** 24 Inches (60cm)

✅ **Printheads:** 4 Epson i3200 (CMYK + W) – Ultra-fast, high-resolution

✅ **Powder Shaker Unit:**

- Dual heating: Pre-heating + curing
- Conveyor with **Vacuum suction**
- **Auto powder recycling system**
- **Fume to Oil Convertor** for clean operation
 - ✅ **Anti-collision sensors** for head safety
 - ✅ **White Ink Circulation** for consistent print quality
 - ✅ **Auto Pause for Head Cleaning**
 - ✅ **Heavy-duty design** built for continuous operation
 - ✅ Compatible with PET DTF Film, DTF Inks, Hot Melt Powder

🏠 Ideal For:

- T-shirt Printing
- Hoodies, Sweatshirts, Denim
- Bags, Caps & Custom Fabrics
- Startups & Bulk Production Units

🔧 Technical Specifications:

- **Printing Speed:** High-speed industrial output
- **Media Handling:** Roll-to-roll with auto winding
- **Drying System:** Built-in heating & powder curing tunnel
- **Supported OS:** Windows 7/10, compatible RIP software
- **Power Supply:** 220V | Energy-efficient

Introducing the **Audley 24-Inch 5-Head I3200 DTF Printer** – a high-performance direct-to-film printing solution for industrial-level garment and fabric printing. This machine comes paired with the **DF800L Automatic Powder Shaker**, making it a fully automatic roll-to-roll DTF printing setup that ensures consistent quality, vibrant prints, and efficient workflow.

⚙️ Key Specifications:

- **Brand:** Audley
- **Model:** 5-Head I3200 + DF800L Powder Shaker
- **Printing Width:** 24 Inches (60cm)

- **Print Heads:** 5 × Epson I3200
- **Print Configuration:** CMYK + White
- **Powder Shaker Model:** DF800L (Fully Automatic)
- **Powder Shaker Features:**
 - 8 Large Powder Tubes
 - Conveyor Belt System
 - Auto Vacuum Suction
 - Fume to Oil Convertor
 - Auto Powder Recycle Unit
 - Full Heat-Controlled Curing Unit
 - Length: 9 Feet | Net Weight: 300 KG | Gross Weight: 450 KG

Why Choose Us?

- ✓ Heavy-duty and stable build
- ✓ High-speed industrial printing with 5 I3200 heads
- ✓ Zero-maintenance powder handling
- ✓ Designed for long-hour continuous production
- ✓ 1-Year Warranty & Installation Support
- ✓ On-site support and guidance available

Applications:

T-Shirt Printing, Fabric Rolls, Cotton Bags, Hoodies, Jerseys, Polyester & Cotton Blend Materials, Customized Textile Printing
