The **24×36 Automatic Heat Press Machine** is the perfect solution for large-format printing businesses that demand precision, productivity, and durability. Built for industrial use, this machine is specially engineered for handling oversized transfers such as bedsheets, hoodies, cushion covers, banners, and home textiles with ease.

• Massive 24×36 Inch Heating Plate

Accommodates large prints for a variety of substrates, ensuring edgeto-edge heat distribution.

• Fully Automatic Operation

With pneumatic (air compressor) or electric auto open/close systems for hands-free operation and consistent results.

Touchscreen Digital Control Panel

Easily set precise temperature and time parameters with a userfriendly interface.

• Heavy-Duty Build Quality

Designed with industrial-grade components for long-lasting performance, even in high-production environments.

• Uniform Pressure & Even Heating

Ensures flawless transfer results across the entire surface, ideal for sublimation, DTF, DTG, and heat transfer vinyl (HTV).

• Anti-Scald and Safety Features

Built-in safety sensors and insulation to prevent overheating and protect operators.

• Energy-Efficient Design

Consumes power smartly, making it suitable for long operating hours without spikes in electricity usage.

Applications:

- Sublimation printing for bedsheets, curtains, and fabric panels
- DTF film transfers for oversized garments
- Heat transfer vinyl on custom merchandise
- DTG finishing for heavy garments
 - 🐗 What's in the Box:
- 1 × 24×36 Inch Heat Press Machine
- Power cable & user manual
- Optional: Stand or wheeled base (if selected)
 Why Choose ProlificGeeks?
- TrustSeal Verified & GEM Certified Supplier
- IndiaMART Star Seller with 100% support
- Nationwide shipping from Mumbai, Varanasi & Bangalore
- Live video demos, setup support & spare availability
- Full guidance for textile business startups
