[Get Best Quote](#)

The Audley A3 UV flatbed printer is a type of printer that can print on various materials and surfaces up to A3 size (11.7 × 16.5 inches) using UV-curable inks. UV flatbed printers are known for their versatility and ability to print on rigid substrates like wood, glass, metal, acrylic, ceramic tiles, and more, as well as flexible materials like PVC, leather, and fabric.

The UV curing process involves using ultraviolet light to dry and cure the ink instantly as it is printed onto the surface. This results in vibrant

colors, high-resolution prints, and durable output suitable for indoor and outdoor applications.

The Audley A3 UV flatbed printer likely offers features such as:

High-resolution printing capabilities.

Variable droplet technology for precise and detailed prints.

Compatibility with a wide range of substrates and materials.

UV LED curing system for fast drying and curing.

User-friendly software for design and printing control.

Ability to print white ink for producing opaque prints on dark substrates.

Options for printing clear coatings for added protection and effects.

UV flatbed printers like the Audley A3 are commonly used in industries such as signage, packaging, promotional products, personalized gifts, interior decoration, and more. They offer businesses the flexibility to create custom prints on various surfaces, opening up opportunities for creativity and customization.

Print Speed 4-pass: Up to 6.5 sqm/h

The **AUDLEY 4 Head i3200-U1 9060-3 (PRO) UV Printer** is a high-performance flatbed UV printer designed for versatile and efficient printing on various materials. Below are its key features and specifications:□

- **Print Heads:** Equipped with four Epson i3200-U1 print heads, known for precision and reliability.□
- **Printing Size:** Supports a maximum print area of 900mm x 600mm (approximately 35.43 × 23.62 inches), accommodating a range of medium to large-sized materials.□
- **Ink System:** Utilizes UV inks with color configurations including CMYK, White, and Varnish, enabling vibrant and durable prints on various substrates.□
- **Material Compatibility:** Capable of printing on diverse materials such as glass, wood, metal, ceramics, leather, PVC, and acrylic, offering flexibility for different applications.□
- **Print Resolution:** Delivers high-resolution prints with a maximum resolution of 1440 dpi, ensuring detailed and sharp images.□
- **Printing Speed:** Offers efficient printing speeds; for example, it can print an A4-sized image in approximately 50 seconds at 1440 dpi resolution.□
- **Material Height Capacity:** Accommodates materials up to 15 cm height, allowing for printing on thicker objects like phone cases and other three-dimensional items.□
- **Drying System:** Features energy-saving LED UV lamps for immediate ink curing, enhancing print durability and reducing production time.□

- **Dimensions and Weight:** The printer's dimensions are approximately 220 cm (L) x 163 cm (W) x 96 cm (H), with a weight of around 370 kg, reflecting its robust construction.□

For detailed information and potential customization options, it is advisable to consult the official AUDLEY product documentation or contact authorized AUDLEY representatives.□

Audley A1/A3 UV Flatbed Printer – Dual Epson F1080 Heads | Auto Height | High-Precision Printing

Product Description:

Introducing the **Audley A1/A3 UV Flatbed Printer**, equipped with **Dual Epson F1080 printheads** (XP600 equivalent). Designed for high-precision, industrial-grade UV printing, this machine comes with **auto height adjustment, threaded rod platen movement**, and a **beltless linear rail system** – ensuring unmatched stability and accuracy in every print.

Perfect for cylindrical and flat objects like phone cases, acrylic sheets, pens, gifts, signage, cosmetic packaging, bottles, leather, and more.

Key Features:

-  **Print Size:** Supports both A3 and A1 formats
-  **Dual Epson F1080 Heads** – CMYK + White + Varnish
-  **Auto Height Adjustment** – Up to 8 inches clearance
-  **Beltless Design** – Uses **Linear Rail + Threaded Rod** for ultra-smooth motion and zero backlash
-  **UV LED Curing System** – Efficient & long-lasting
-  Equipped with **air-cooled UV system**
-  Supports **Rotary Attachment** for bottles & cylindrical items

Applications:

- Mobile covers, wood, acrylic, PVC, leather
- Cosmetic bottles, glass, metal pens, awards
- Gift items, trophies, signage, packaging

What Makes This Model Premium?

-  Precision mechanical movement – Say goodbye to belts
-  Dual-head setup for fast and vivid prints
-  Compact yet powerful industrial build
-  Print white + varnish in one pass

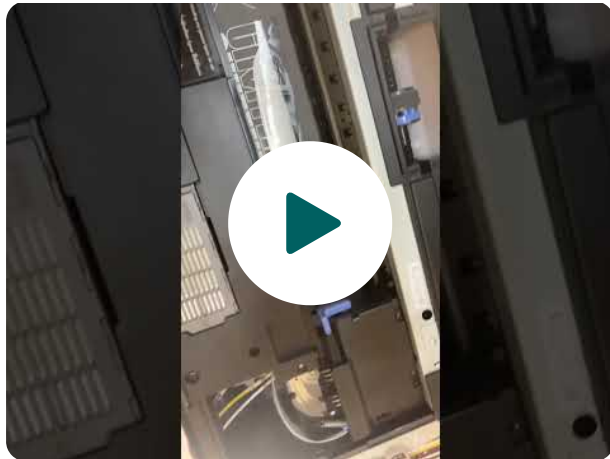

-  Supports cylindrical and 3D surface printing
-  **Why Choose ProlificGeeks?**
- GEM Certified | TrustSeal Verified | IndiaMART & TradeIndia Star Supplier
- 12+ Years Experience in UV, DTF, and DTG Printing
- Dedicated support and training provided
- Fast dispatch from **Bangalore, Mumbai (Kalyan), Varanasi (Sigra)**
