**How to calculate your T-shirt Printing Cost?**

There are many ways you can calculate your Total Tshirt Print cost, either you can trust your software calculation which we provide with our machine or you can calculate via manual way which we have tested by our engineering team USA. Below is Formula, you can calculate tshirt cost by yourself by selecting ink price with our formula.

**Based on Tested Light & Dark Garments**

Each Full A3 Size Tshirt Print Require 2.5ml in Resolution mode 1440x1440dpi with Mix droplet size Ink level 60% of variable size 1.5 Pico litre

**Printing Cost Formula**

$$\frac{\text{CMYK INK ( 4l=4000ml) X Total Ink Cost}}{1000ml} = 1 \text{ ml Cost X } 2.5 \text{ ml} = \text{Tshirt Print cost}$$

**Pre-Treat Cost Formula**

Each Full A3 Size Tshirt Require pre-treatment of 20ml. for best treatment keep your sprayer distance 30 CM away from tshirt and sprayer should cover a3 size area (13 Inches) in horizontal once then for dark garment your sprayer should cover a3 size area(19 inches) vertical + horizontal both. for light garment only once. for only horizontal way pretreatment total 12ml pre treat is get used, for dark garment Horizontal then vertical total 20 ml pre-treat is get used.

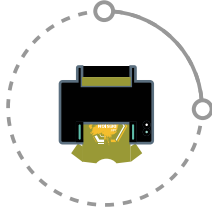

**Pre-cure T-shirt weight > Then Apply Pre-treat liquid**

$$\text{Pre-cure T-shirt weight} - \text{Post-cure Treatment Weight} = 20 \text{ MI}$$

**Total Printing Cost= Printing Cost + Pretreat Cost + Weekly Head Cleaning Cost**

## Which way would you like to select our machine ?

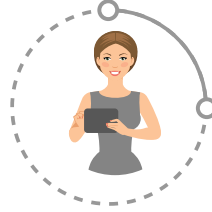

You can choose our one of three option. Please select any one and Get to know about our machine quality, feature. Please select any one option below and call us:

### Print-Shirt Sample

- You can give your Image or will put our any image and will print on t-shirt and shoot video and send you in whatsapp.
- You need to Pay per T-shirt Charge Rs 500 + Courier Charge

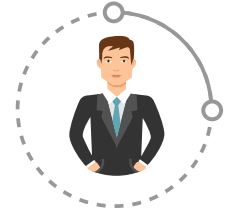

Option 1

### Meet our Customer

- You can bring your Tshirt for printing or just visit our customer place and check Live printing there
- You need to Pay per T-shirt Charge Rs 500 + Courier Charge Demo View Charges which will be refund when purchase machine from us.

Option 2

### Meet me @ Bangalore

- As per availbilty of printer You can come down to our banglore premises and see live printer
- You need to Pay per T-shirt Charge Rs 500 + Courier Charge + Demo View Charges which will be refunded when purchase machine from us

Option 3
